Ludhiana, India

Profile

Motivated Computer Science Engineering student seeking internship opportunities to apply technical skills and gain practical experience in software development and programming.

Education

CSE, Gulzar group of institutes, Khanna
2021–2025

XII, Govt. Model Sen. Sec. School, Ludhiana
2019–2021

Internships

Cybersecurity Virtual internship, Paloalto
01/2024–03/2024

Participating in the cyber security virtual internship has been an enriching experience that has deepened my understanding of the dynamic field of cybersecurity. Throughout the internship, I have acquired practical knowledge in threat detection, incident response, and security best practices.

Web Development Intern at CodSoft, virtual Internship
03/2024–04/2024

In this Internship I am developing a personal portfolio website showcasing projects and skills using HTML, CSS, and JavaScript.

PROJECTS

REAL TIME FACE RECOGNITION ATTENDANCE SYSTEM USING MACHINE LEARNING

The main objective of this project is to develop a face recognition-based automated student attendance system.

AMAZON CLONE

I created this project using HTML and CSS when I learned HTML and CSS.
